

QUICK ORDER CRANE KITS

**CONDUCTOR BAR SYSTEMS
WITH AVAILABLE RADIO CONTROLS
FOR OVERHEAD CRANES**

SAVE TIME WITH VAHLE QUICK ORDER KITS

VAHLE's new Quick Order Kits offer complete conductor bar packages with optional radio controls. Utilizing either VAHLE's industry-leading KBHF Enclosed Conductor Bar or our newest innovation, U25/75F Galvanized Unipole conductor bar, these turnkey solutions offer low maintenance, cost-effective, and complete conductor bar packages in common lengths for overhead crane runway and bridge electrification. These packages include all required components for installation and offer optional radio control packages to eliminate the need for conventional cable festooning completely.

WHY GO FESTOON-LESS?

- Eliminate cable storage area
- Remove hazard of overhead cables
- Greatly reduce install & maintenance times
- Reduce costs associated with cable replacement
- Increase safety by removing pendant control

PROVEN SOLUTIONS

VAHLE QUICK ORDER KITS WITH KBH & U25 CONDUCTOR BAR

Each VAHLE Quick Order Kit comes backed by over 100 years of proven engineering and technical knowledge. Available in a variety of common lengths, VAHLE Quick Order Kits provide innovative and quality electrification solutions to overhead cranes. Choose from two varieties of KBH (63 or 100 amp) or our newest innovation, U25/75F, rated at 100 amps.
