

# TECHNICAL SERVICES

To ensure quality performance throughout the life of your system, VAHLE offers a range of services to keep your products running at peak performance. Whether your goal is to minimize downtime or to lower long-term maintenance costs, we've got you covered.

**YOUR VISION, OUR SOLUTION.**

## Installation

Retrofitting or installation of parts on new systems on-site.

## Training

Certified technicians educate your staff about maintenance, repairs, and installations of VAHLE products.

## Repairs

On-site repairs handled by service technicians. Parts are ordered by the customer and delivered prior to service.

## Supervision

Experienced supervisors observe and direct your team of technicians on services being performed.

## Commissioning

Testing and tuning of automation systems for optimal performance.

## Cleaning

Full service cleaning to extend the life of your system and minimize sparking hazards.

## Inspection

System inspections resulting in a comprehensive site report, with maintenance and repair recommendations.

# TECHNICAL SERVICES

## BENEFITS

### LESS DOWNTIME

Letting experienced VAHLE technicians handle the troubleshooting, repairs, and maintenance of your system keeps it running at maximum efficiency with minimal downtime.

### LOWER COSTS

Save money over the life of your system with preventative maintenance resulting in fewer critical service requests.

### PREMIUM SYSTEM PERFORMANCE

Our technicians will provide recommendations to keep your VAHLE system at optimal effectiveness.

## IS IT RIGHT FOR YOU?

We recommend VAHLE installation services for any systems containing curves, track switches, or automation products.

VAHLE trainings and supervision are ideal for customers with maintenance crews or flexible scheduling for plant shutdowns.

New VAHLE customers get their systems up and running faster than ever with VAHLE installation, commissioning, and training.

## VISIT OUR TRAINING CENTERS

VAHLE offers in-house training at the Detroit Demo Center (DDC) and the US headquarters in Houston, TX.

Both the DDC and Houston offices offer training and demonstrations of the latest products. VAHLE offers **hands-on training** for power and automation products alongside popular applications such as **EMS lines, gantry cranes, and AGVs**. Each training session features instruction on system components, application installation, and basic troubleshooting.

**Make an appointment today to get personalized training for your system and application!**
